

AZUKAEGO DANIEL ASHIOMA

3D Asset & Environment Artist

+234 812 115 8767 • azukaegodaniel@gmail.com • the_bare_minimum_artist.artstation.com

PROFILE

3D artist with 5+ years of experience building game-ready assets and environments, currently freelancing on environment and prop art for the game Daydream. Final-year Computer Science student (CGPA 4.50/5.00) with hands-on scripting experience and currently learning C# for Unity, bringing a technical, pipeline-aware perspective to art production. Comfortable owning a scene from blockout through final lighting and optimization.

SKILLS

- Environment art: modular level building, set dressing, hard-surface & organic modeling, foliage and prop scattering
- Asset production: game-ready topology, UV layout, texturing/PBR shading, LOD-conscious modeling
- Lighting & rendering: scene lighting, look-dev, clay/wireframe pass reviews, cinematic composition
- Pipeline & tech: currently learning C# for Unity; comfortable working in engine alongside programmers
- Workflow: blockout → clay review → texture/light pass → final render, built for fast iteration with a small team

EXPERIENCE

Environment & Asset Artist (Freelance) | *Daydream* Late 2025 – Present

- Model and texture environment assets and props for Daydream, taking pieces from blockout through final in-game-ready state
 - Build modular set pieces and dressing assets used to populate and vary game levels
 - Work directly with the development team to match art direction and technical/performance constraints
-
